EDITORIAL STANDARD

Language Rules

This document follows a strict bilingual convention. The language of each content layer is fixed and must not be mixed.

ENGLISH EN — MANUAL LAYER

- All section titles and descriptions
- Design specs and typography rules
- Channel constraints and technical limits
- Variable names and n8n logic annotations
- DO / DON'T rules and compliance notes
- Timing, scheduling, and frequency guidelines
- Metric targets (open rate, CTR, conversion)

PORTUGUÊS BR PT-BR — PIECE LAYER

- All email subject lines and preheaders
- Email body copy — greeting, body text, sign-off
- Push notification titles and body text
- SMS message content
- CTA button labels inside email templates
- Dynamic variable placeholders stay in brackets: [Nome] , [Categoria]
- Coupon codes: uppercase alphanumeric — language-neutral

CHURN PROBABILITY > 70%

● HIGH RISK

— Win-back Campaign

Triggered automatically on Day 0 via n8n for all customers with churn probability above 70%.
Four-touchpoint sequence over 14 days. Maximum incentive: 25–30% OFF + Free Shipping.
Discount scales with LTV: top 20% customers receive +5% additional.

SUBJECT LINE & PREHEADER PT-BR

- Subject: [Nome], sentimos sua falta na VivaMarket! ❤️
- Preheader: Te preparamos uma oferta especial para voltar a comprar.
- Max 50 chars on subject line (mobile truncates at 40)
- 1 emoji per line, always at the end — never at the start

TYPOGRAPHY RULES EN

- Body text: DM Sans 15px / 400 / #3A3A5A
- Discount value: DM Sans 36px / 700 / #C01010

- Coupon code: DM Mono 18px / 600 / #005090
- CTA button: DM Sans 15px / 600 / #FFFFFF
- Footer: DM Sans 11px / 400 / #6B6B8A
- Minimum 13px on any text element

LAYOUT & COLOR RULES EN

- Header background: #005090 (VivaMarket Blue)
- Hero block: #F2F2F6 (Light Neutral)
- CTA button: #005090 · border-radius 8px · height 48px
- Outer background: #F4F4F8 · Container: 560px white
- Lateral padding inside container: 32px

DYNAMIC VARIABLES (N8N) EN

- [Primeiro Nome] — first name from CRM
- [Categoria Principal] — top SHAP driver category
- [ID] — customer_id suffix for unique coupon
- [Produto 1–3] — collaborative filtering recs

SUBJECT LINE & PREHEADER PT-BR

- **Subject:** Última chance: [Nome], sua oferta está acabando 🕒
- **Preheader:** 30% OFF + Frete Grátis — expira em 48h.

DESIGN CHANGES VS DAY 0 EMAIL EN

- Red urgency bar below header
- CTA button: #C01010 (Red instead of Blue)
- Offer escalated to 30% (was 25%)
- New unique coupon generated via internal API
- No product recommendation grid — focus on urgency
- Subject line uses scarcity framing

CONDITIONAL SEND LOGIC EN

- Only sends if customer made no purchase in prior 7 days
- n8n checks conversion flag before dispatch
- If converted → cancel sequence, log as won-back
- If Day 14 also missed → mark as churned, exit flow

✉ Email — Day 14 COPY PT-BR FEEDBACK + LAST ATTEMPT · R\$40 SURVEY INCENTIVE

SUBJECT LINE & PREHEADER PT-BR

- **Subject:** [Nome], nos conte: como podemos melhorar? 🗨️
- **Preheader:** Responda e ganhe R\$40 OFF na próxima compra.

DESIGN & TONE RULES EN

- Header: Deep Blue #104070 — signals shift in tone
- No percentage discount — monetary fixed incentive only
- CTA: Deep Blue, not red — removes urgency pressure
- Embedded choice chips for quick survey response
- Empathetic sign-off: thank the customer, no hard sell

END-OF-SEQUENCE LOGIC EN

- This is the final touchpoint in the High Risk sequence
- Survey responses feed back to SHAP driver analysis
- Regardless of outcome: exit sequence, suppress for 30 days
- Flag customer as "full-sequence exhausted" in n8n log

CHURN PROBABILITY 40–70%

●MEDIUM RISK

— Re-engagement & Nurturing

Prevent medium-risk customers from escalating to high-risk. Consultative tone — no urgency framing. Moderate discount: 10–15% or conditional free shipping (orders ≥ R\$150). Frequency: every 3–7 days. Channels: Email + Push.

Email — Re-engagement

Para você

Baseado na sua última compra, selecionamos isso pra você.

Olá [Nome],

Separamos alguns produtos que achamos que você vai amar, baseados no que você comprou em [Data Última Compra]. E tem uma surpresinha especial esperando por você:

SUBJECT LINE & PREHEADER PT-BR

- Subject: [Nome], tem algo especial esperando por você 🎁
- Preheader: Produtos selecionados para você + 12% OFF em pedidos acima de R\$150.

TONE & DESIGN DIFFERENCES VS HIGH RISK EN

- Consultative, not urgent — no "última chance" framing
- CTA button: Green #208040 — positive, not alarming
- Offer: 12% (not 25%+) · conditional on order value
- 3-product grid: prices visible — medium risk is price-sensitive
- No urgency bar · no countdown · no scarcity framing

TYPOGRAPHY SPECIFICS EN

- Discount value: DM Sans 28px / 700 / #005090 (blue, not red)
- Coupon: DM Mono 18px / 600 / #208040 (green)
- CTA: DM Sans 15px / 600 · bg #208040
- Product price: DM Sans 12px / 600 / #005090

DYNAMIC VARIABLES (N8N) EN

- [Nome] — first name
- [Data Última Compra] — formatted date from CRM
- [Produto 1–3] — collaborative filtering recs
- [valor] — product price from catalog

- [ID] — customer_id for unique coupon

 Push — Medium Risk

COPY PT-BR

SENT WITH EMAIL · DISCOVERY ANGLE

MEDIUM

IOS MOCKUP

Softer tone vs High Risk push

PUSH COPY RULES

EN

- Title: curiosity-driven, not urgency-driven
- No discount mention in push — keep intrigue for email
- Deep link: personalized recommendations page
- Send window: 09:00–20:00 customer local time

MEDIUM RISK PUSH VS HIGH RISK PUSH

EN

- No gift emoji 🎁 — reserved for High Risk only
- No percentage or monetary mention
- Emphasis on discovery, not win-back
- Shopping bag emoji 🛍️ signals value, not emergency

CHURN PROBABILITY < 40%

LOW RISK

— Loyalty & LTV Growth

No monetary discount. Focus on perceived value, exclusivity and LTV growth. Frequency: weekly to monthly. Channels: Email + In-app. Incentives: loyalty points, early access, NPS survey reward.

SUBJECT LINE & PREHEADER PT-BR

- **Subject:** [Nome], você tem acesso exclusivo antes de todo mundo ✨
- **Preheader:** Como cliente VIP, você vê primeiro. Obrigado por fazer parte.

TONE & DESIGN PHILOSOPHY EN

- Never mention percentage discount
- Language of exclusivity, not urgency
- Gold VIP badge — status identity signal
- Header: Deep Blue #104070 — more premium register
- NPS R\$20 is a thank-you, not a transactional incentive — frame accordingly
- CTA: Deep Blue — removed from red/green semantic zone

TYPOGRAPHY SPECIFICS EN

- No large discount numeral — intentional absence
- **Loyalty bar heading:** DM Sans 15px / 700 / #FFFFFF
- **VIP badge:** DM Sans 11px / 700 / #104070 · bg #E0B000
- **NPS label:** DM Sans 14px / 400 / #3A3A5A
- **NPS active button:** bg #208040 — only one pre-highlighted (10)

LTV STRATEGY NOTES EN

- Rotate offers: early access → NPS → points boost → UGC invite
- Do not repeat same incentive type in consecutive sends
- Top 1–5% LTV: escalate to WhatsApp Business or retention agent call
- Frequency cap: max 1 loyalty email per 7 days

Channel Specifications

Hard limits, send windows and required configuration for each channel. These values are non-negotiable — they ensure LGPD compliance, deliverability, and anti-fatigue enforcement.

 EMAIL SendGrid / Amazon SES	
PARAMETER	VALUE
Container width	560px · white bg
Outer background	#F4F4F8
Lateral padding	32px
Subject line	Max 50 chars
Preheader	85–100 chars
Body font	DM Sans 15px / 400
Minimum font size	13px (footer)
CTA height	48px · radius 8px
Open rate target	> 22%
CTR target	> 4%
Conversion target	> 1.5%
Send window	09:00–20:00 local
Unsubscribe link	Mandatory in footer

Open rate target	> 8%
CTR target	> 2%
Conversion target	> 0.8%
Platforms	iOS + Android
Global freq. cap	Max 4 contacts / 30 days (all channels)
Opt-out	OS-level notification settings

COMPLIANCE & ORCHESTRATION

Anti-Fatigue & LGPD Rules

These rules are enforced at the n8n orchestration layer before any message is dispatched. They are not optional design guidelines — they are hard constraints.

GLOBAL FREQUENCY RULES

- **Hard cap:** max 4 contacts per customer per 30 days — all channels combined
- **SMS fires only** if email was not opened — never both on the same day
- **Push notification** fires simultaneously with Day 0 email — counts as 1 contact
- **Customer who converts mid-sequence:** cancel all remaining touchpoints immediately
- **Sequence exhausted (Day 14):** suppress customer for 30 days before re-entry

LGPD COMPLIANCE CHECKLIST

- **Explicit consent** documented for all communications
- **Unsubscribe link** visible in every email footer
- **SMS opt-out** via reply STOP — processed automatically in n8n
- **Push opt-out** via OS-level notification settings
- **Full audit trail:** channel, timestamp, customer_id, action type logged per send
- **Training dataset:** anonymised historical data — no PII in model features

SEND WINDOW ENFORCEMENT

- **Email:** 09:00–20:00 customer local time
- **SMS:** 10:00–19:00 customer local time · weekdays only
- **Push:** 09:00–20:00 customer local time

- n8n cron checks local timezone from CRM before dispatch
- Messages queued outside window are held and sent at next valid slot

CONTROL GROUP & A/B TESTING

- **Control group:** 15% of High Risk customers receive no action — randomly selected in n8n
- Control group is never targeted and must be kept stable across 30-day windows
- **A/B tests:** subject line variants, CTA copy, incentive type (% vs fixed vs free shipping)
- Minimum 500 customers per variant before drawing conclusions
- All variants must respect this visual identity guide

NON-NEGOTIABLE RULE

The control group is the mechanism that proves the system's incremental value. Removing it — even temporarily, even for speed — eliminates the ability to measure true retention uplift and renders ROI claims unverifiable. It must remain in place at all times.
